GOAL

Web developer

PROFESSIONAL RESUME

I am a professional specialized in web development, with extensive experience in creating and maintaining web systems. My expertise includes system development and website development, utilizing technologies such as HTML5, JavaScript, among others. Furthermore, I have skills in database integration and management, ensuring the robustness and efficiency of applications. I strive to deliver complete solutions for the development and maintenance of web platforms.

ACADEMIC EDUCATION

- **Bachelor of Telecommunications Engineering** (IFCE), 2021 to 2026
- **Computer Technician** (IFCE), completed in 2021

PROFESSIONAL EXPERIENCE

MELRE BUFFET MÓVEL (Microenterprise)

Web Developer Freelancer

apr/2024 to jul/2024

- I implemented a custom inventory control system using NextJS for the Frontend and NodeJS for the Backend, aiming to reduce food waste and cut costs on products already available in the Buffet;
- I performed software maintenance and implemented improvements to ensure scalability and efficiency;
- I implemented a RESTful API to facilitate communication between the various services offered by the application;
- I developed scripts for automation, ensuring the automatic sending of emails for the shopping list of items and raw materials required by the Buffet;
- implemented and managed relational and non-relational databases for efficient data storage, using PostgreSQL and MongoDB.

INSTITUTO ATLÂNTICO (Large-sized company)

Web developer

mar/2022 to apr/2024

- I designed and implemented interactive and responsive user interfaces for web systems, utilizing modern technologies such as ReactJS and NextJS and best usability practices;
- I developed and maintained web systems, ensuring bug fixes, security updates, and continuous functionality improvements;
- I created scalable and robust system development architectures, ensuring application efficiency and performance;
- I designed, implemented, and optimized database structures to support web systems, utilizing MySQL, PostgreSQL, and MongoDB, ensuring data integrity and accessibility;
- I developed and integrated APIs and external services to expand web systems' capabilities, utilizing NodeJS and Django, promoting efficient communication between different platforms.

LANGUAGES

English - Intermediary

Portuguese - Native

COMPLEMENTARY TRAINING

- **Digital Twins Certificate** (Coursera) - 9h;
- **Scrum Foundation Professional Certificate** (Certiprof) - 4pm;
- **Training in Computer Graphics and Virtual Environments** (Instituto Atlântico) - 36h;
- **Generative Artificial Intelligence Certificate** (Instituto Atlântico) - 36h
